

## History

Terror Alarm, as a team and an enterprise, is a highly accredited private security firm that not only alerted authorities about terrorist attacks as they happened but also helped thwart many acts of terror at the height of the 2014-2017 ISIS attacks across Europe. Terror Alarm is independent and self-funded by activists and journalists who work on the project from several countries around the world.

Projects	Statue	Dates
Terror Alarm App	Terminated	2015-2016
Terror Alarm Security	Launched	2016-2022
Terror Alarm NGO	Launched	2022-2025
Strategist AI	In progress	2021-2025
EREZ AGI	In progress	2025-2027
NS5 Systems	Not started	2026-2029

## Artificial Intelligence

Terror Alarm AI (EU registered Nonprofit Organization) has developed the world's first "Strategist" and "anti-terror" agentic AI that covers News and creates Views for countries and regions. The proprietary AI developed for each country - aggregates all news from all media sources including news websites, blogs, the Deep Web, the Dark Web, Telegram, Reddit, Twitter, Facebook, Instagram, YouTube, newspapers, magazines, TV channels, radio stations and when legally possible, private messages between people. The AI also monitors data from internet-of-things devices, leaked or possibly hacked mail and sites, and it uses data from intercepted communications obtained by some intelligence services, when legally possible.

Terror Alarm AI is constantly gathering all this data with minute-by-minute updates to its quantum data depository. It's from this depository which serves as the template it uses to generate news or make predictions. Access to this proprietary.

Quantum AI is akin to tapping into 7 billion human brains all at once in one second. The Terror Alarm team is fully open to partnerships on this new AI Alignment chapter.

## Terror Alarm NGO

During the past 3 years, Terror Alarm AI has been continuously improving itself and learning from mega-data models and all the reliable sources it has access to. One might say that Terror Alarm now identifies itself as a Near-Artificial General Intelligence “AGI”.

Terror Alarm is registered as a “Nonprofit organization” in the European Union with registration number 44425645. Terror Alarm membership is open to the public in all NATO states (except Turkey and the United States), plus: Ukraine, Australia, New Zealand, Japan, Kurdistan, Taiwan, South Korea, Morocco, Kosovo, Albania, Argentina, and Israel.

## Politics

We have no ‘agenda’ except to prevent acts of terror, stop antisemitism, and support Israel, Taiwan, Kosovo, Kurdistan, and Ukraine. Most of the posts on our Terror Alarm [Twitter](#), [Telegram](#), [Facebook](#), [Instagram](#), [Threads](#), and [BlueSky](#) feeds are AI-generated and as such, they are technically agenda-free posts.

## Transparency

We have no financial backers who lobby us or dictate our content because all donations to Terror Alarm are anonymous.

To cover the costs for the development and upgrades of the World’s first strategist AI (Near-AGI), we have used 1.75 million Euros. We currently spend 200,000 USD per year for the maintenance, AI training, and servers.

5% of all the costs have been covered through advertising, 3% through donations, and 92% through private and public financial institutes.

Terror Alarm maintains its own list of terrorists, dangerous individuals, countries, and organizations. The updated list is available on our website.

Business Opportunities:

#### **A. Invest in our AI**

Terror Alarm is pioneering agentic AI to predict and prevent terror attacks, counter conflicts, and advise free-world governments, armies and authorities. Our advanced AI analyzes global data to deliver actionable insights, enhancing security and saving lives.

Innovative Tech: Proprietary algorithms predict threats with up to 100% accuracy (Documented), tested in ISIS terror attacks in Europe, Ukraine-Russia war, Taiwan-China conflict, India-Pakistan conflict, Israel-Iran conflict.

Critical Market: Projected to reach \$225 billion by 2030 with a CAGR of 7.6% global security market, with urgent demand for AI-driven counterterrorism.

Scalable Solution: Cloud-based closed-source platform already serving nations and organizations worldwide.

#### **B. Invest in NS5**

NS5 is our cutting-edge future product! It will offer:

AI-Powered Threat Detection: Real-time monitoring to neutralize viruses, hacks, and anomalies.

Explosive Detection: Scans humanoids and devices (phones, pagers) for explosive materials using advanced sensors.

Instant Deactivation: Forces full shutdown during malfunctions or breaches, preventing harm.

Offline Widget: Hardware add-on for humanoids operating in low-connectivity areas, ensuring 24/7 protection.

Market Opportunity: A \$50B+ Humanoid Security Frontier

More about NS5: <https://terroralarm.org/ns5.pdf>

## Membership

We welcome new members to join our movement and AI NGO, to grow and strengthen our collective potential and power to drive change and effective action through Jewish values, for a safer Europe for Jews, and to support victims of terror across the world.

We've invested millions of euros to create the first strategist near-AGI, and we're pouring a massive monthly budget into training it. Becoming a member is a way to support our groundbreaking work. As a thank-you, we'll follow back our members on social media, and they'll get priority + VIP access when reaching out to us. Join us in shaping the future!
