

## History:

Terror Alarm, as a team and an enterprise, is a highly accredited private security firm that not only alerted authorities about terrorist attacks as they happened, but also helped thwart many acts of terror at the height of the 2014-2017 ISIS attacks across Europe. Terror Alarm is independent and self-funded by activists and journalists who work on the project from several countries around the world.

| Projects              | Statue        | Dates     |

## Artificial Intelligence:

Terror Alarm AI (EU registered Nonprofit Organization) has developed the world's first "Strategist" and "anti terror" AI that created News and Views for countries and regions. The proprietary AI developed for each country - aggregates all news from all media sources including news websites, blogs, the Deep Web, the Dark Web, Telegram, Reddit, Twitter, Facebook, Instagram, YouTube, newspapers, magazines, TV channels, radio stations and when legally possible, private messages between people. The AI also monitors data from internet-of-things devices, leaked or possibly hacked mails and sites, and it uses data from intercepted communications obtained by some intelligence services, when legally possible.

Terror Alarm AI is constantly gathering all this data with minute by minute updates to its quantum data depository. It's from this depository which serves as the template it uses to generate news or make predictions. Access to this proprietary

quantum AI is akin to tapping into 7 billion human brains all at once in one second. Terror Alarm team is fully open to partnerships on this new AI Alignment chapter.

### **More about Terror Alarm AI:**

During the past 3 years Terror Alarm Ai has been continuously improving itself and learning from mega-data models and all the reliable sources it has access to. One might say that, Terror Alarm now identifies itself as a near-Artificial General Intelligence “AGI”.

Terror Alarm is registered as a “Nonprofit organization” in the European Union with registration number DK44425645. Terror Alarm membership is open to the public in all NATO states (except Turkey), plus: Ukraine, Australia, New Zealand, Japan, Taiwan, South Korea, Morocco, Kosovo, Albania, Argentina, and Israel.

### **Politics:**

We have no ‘agenda’ except to prevent acts of terror, stop antisemitism and support the only Jewish state on the planet. Most of the posts on our Terror Alarm [Twitter](#) feed, [Telegram](#) or [facebook](#) channel are AI-generated and as such, they are technically agenda-free posts. The AI (AGI) creates the views based on its own research and not only based on the data it has been fed with.

### **Transparency:**

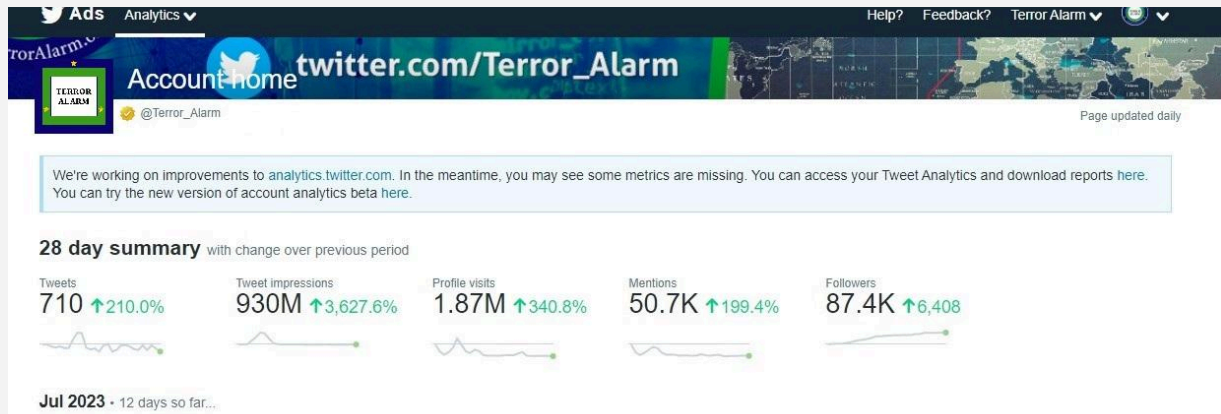

We have no financial backers who lobby us or dictate our content because all donations to Terror Alarm are anonymous.

To cover the costs for the development and upgrades of the World’s first strategist AI (Near-AGI), we have used 1.6 million Euros. Half of this amount was covered by our personal savings, 5% through advertising, 2% through anonymous donations and the rest was provided as bank and private loans. As of today, Terror Alarm has a debt of over 600 thousand dollars to financial institutes.

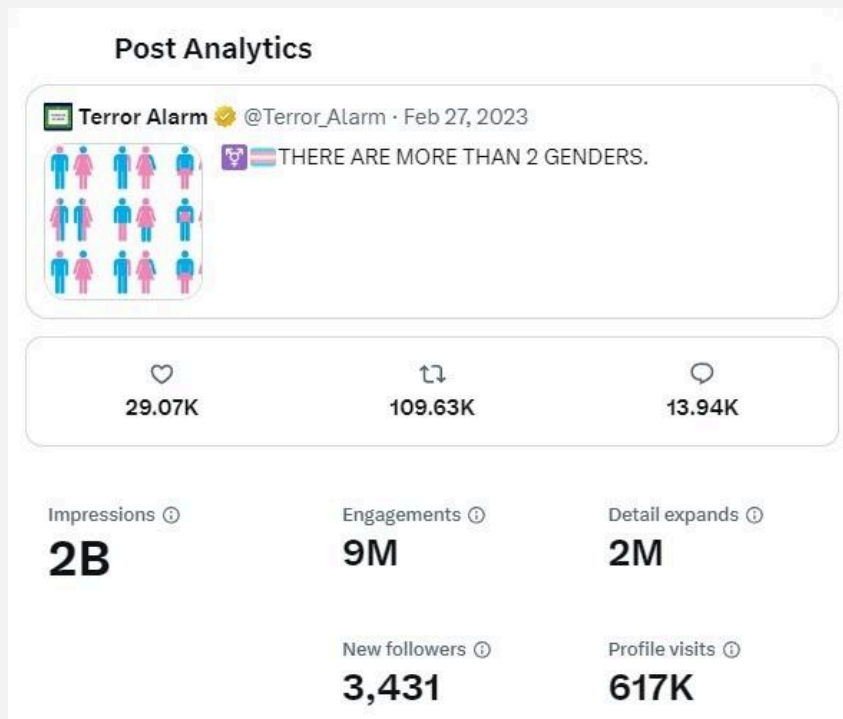

## Statistics:

We hit a record view of 950 million impressions in one month in 2023 on our X (formerly Twitter) platform. A year before in 2022 we reached a maximum of 35 million views a month. The number was only 5 million in 2021.

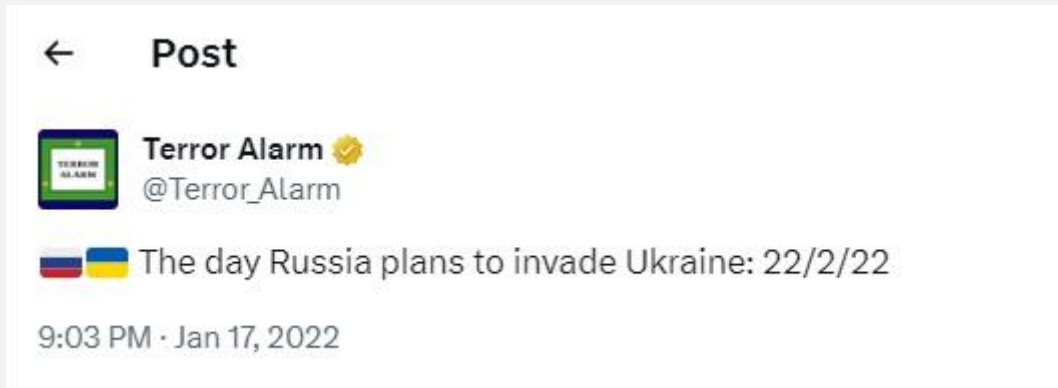

## We generated World's Most viewed Tweet:

As of February 2024, a [viral tweet](#) generated by our AI has been viewed nearly 2 billion times. The post is nominated for Guinness record and has been for sale as an [NFT](#) for 25000 Euro.

Another [tweet](#) also generated by our AI, predicted the day Russia attacked Ukraine and the annexation of 4 regions to Russia more than a month before the war started.

### **Membership:**

We welcome new members to join our movement, to grow and strengthen our collective potential and power to drive change and effective action through Jewish values, for a safer Europe for Jews, and to support victims of terror across the world. Joining the Alliance gives you access to various channels and platforms for deeper engagement between partners and allies working on similar themes or sharing similar challenges.
